OPP request public assistance to identify body of youth

The Ontario Provincial Police have not yet been able to identify the body of a youth found in a swamp 16 km east of Kingston, Ontario, March 30.

A local trapper was checking his trap-line in a Pittsburgh Township swamp when he discovered the body. The swamp lies less than a kilometre north of Highway 401, the main highway from Montreal to Windsor.

Provincial police investigators say that foul play has not been ruled out. They believe the body had only been lying there for a few days. The cause of death was drowning.

The youth is described by police as being about 15 years of age, 5' 8" tall and weighing 147 lbs. He had medium brown hair, well cut, and his right eye was hazel coloured. The left eye had been surgically removed at some time. A plastic implant was still in the eye socket, but it is not known if a false eye or an eye patch was used.

Other identifying features include a small, noticeable cyst on the left cheek and two missing back teeth.

No clothes were found near the body, but a distinctive blue backpack was found in the area and may have belonged to the young man. It was an aluminum-frame pack manufactured by Traynor, and the model is called the Laurentian. There is a small Canadian flag on the flap.

The pack only contained a small tent and one or two personal items. There were no clothes in the backpack.

The circumstances of the young man's death are being investigated by officers from the Ontario Provincial Police detachment at Kingston and the OPP criminal investigation branch in Toronto. The police are appealing for anyone who may have knowledge about the youth's identity, or may have seen him prior to his death, to contact Kingston OPP at (613) 384-2400, OPP criminal investigation branch at (416) 965-8105 or their local police force or OPP detachment.

Warm weather will bring July 1st opening of bridge

CARNARVON — The new bridge at Twelve Mile Lake, 8 km north of Minden on Highway 35, is ahead of schedule presently, and if the weather holds the completion date will be right on target. According to a Looby Construction spokesman, construction of the bridge should be finished by July 1st. In the lower photo, Bill Yeo of Kernohan Construction of Minden levels the gravel for the bridge approaches.

Anson, Hindon and Minden

Race track at fairgrounds may become a reality for Minden

MINDEN — Council for Anson, Hindon and Minder hedl their 12th meeting last Wednesday in the municipal chambers.

MULTI PURPOSE RACE TRACK: Tom Prentice was present at the meeting to discuss the possibility of a multi-purpose race track in the fairgrounds. He advised council that the approximate cost would be $7,500 and suggested that a fee could be charged to each organization holding an event on the track to offset future maintenance costs.

Council deferred decision on the matter pending review by the Agricultural Society and residents on Prentice Street, which borders the grounds.

ACCEPTS TENDER: Council passed a resolution to accept the tender of Doug Tedford Contracting to do the work at the cultural centre in the amount of $1,700.

Further, that the library room be completed by May 8th and an extension be allowed on the remainder of the building. The new completion date to be May 29th, 1981.

GRAVEL TENDER: Council accepted the tender of Thompson Crushed Stone to crush 15,000 cu. yds. of gravel off the belt at .98 cents per yard., subject to MTC approval.

Clerk-treasurer, Elinor Burke was directed by council to request the MTC in North Bay to prepare new signs for the Minden bypass as follows: "Minden Business Section, next 4 exits" (one for each end of the bypass) and Main Street, Minden (2 at south end of bypass).

CAUSEWAY WORK: Orville Eagle was present to request council to install larger culverts or a small bridge in the causeway leading to Shyler's Island on Horseshoe Lake, to allow water to flow more freely from the marshy area of the lake as well as to prevent silt from settling on several properties near the causeway. Council directed the clerk to contact W. Ham of MTC regarding subsidy for any work that may be performed there.

Former employee takes over Maple Lake store on Monday

STANHOPE — After an absence of nearly two years, Joe Hughes the former butcher at Welch's Store will take over the business on Monday, May 4th when owner Leroy Eager retires.

Since leaving the Maple Lake store in June of 1979, Mr. Hughes has worked elsewhere in the area and after a fruitless search for a suitable site to operate a slaughterhouse, he decided to take over an existing business.

During the last few years the local store has seen several changes in name and management and has been known to many as Rancher's Market, Welch's Store and more recently Welch's Foodtown.

For a short time in 1979 the store became that of Mr. Mike Vuksic of Haliburton when it joined the Foodtown group.

However, with the return of Mr. Hughes to the premises it will soon be known once again as Rancher's Market — Foodtown.

Presently the new owner will endeavour to restock the store in preparation for summer business and will operate from 9 a.m. to 6 p.m. from Monday to Saturday remaining open Friday nights 'til 9 p.m.

DO YOU KNOW THIS MAN?

EDITORIALLY SPEAKING

Open holsters prompt poor "high noon" mentality

It has been called the "High Noon" mentality — that obsession of the Americans with their guns. It's an obsession that makes US cities murder capitals and which has cost the lives of many public assassination victims.

And that "High Noon" mentality is most evident among police officers who wear their handguns like quick-draw artists.

We disagree completely with an Ontario study which recommends that our police officers use open holsters like their American compatriots. The report also recommends that police be equipped with two-foot high impact plastic batons as weapons.

As Toronto police chief, Jack Ackroyd says, police officers flaunting guns in open holsters and carry clubs are going to have difficulty maintaining their image as "peace officers."

Even in recent police shootings in the area of Orillia and Huntsville, it is doubtful that quick-draw holsters and guns would have helped the victims. At times they might even be a hazard since an officer's gun can be drawn from an open holster easily by someone from behind.

The criminals and law-abiding citizens of Ontario alike are well aware that our police can muster a frightening array of weapons when they have to.

But unless they absolutely have to, they keep their arsenal discretely hidden — including their personal handguns.

The performance and reputation of our police compared to that of America's gun slinging officers and the relative peace of our province compared to the open warfare of American cities indicate we have been doing it right.

Open holsters are one Americanization we can do without.

Eakins switches from tourism to Natural Resources now

John Eakins, Liberal MPP for Victoria-Haliburton since 1975, will be the Liberal Critic for Natural Resources in the forthcoming Spring Session at Queen's Park.

Liberal Leader Stuart Smith commended Eakins on "the fine work he has done as our Tourism Critic especially in connection with our successful Tourism Task Force. I have no doubt whatsoever that he will be equally effective as Natural Resources Critic."

Eakins' appointment became effective on the first day of the new legislature, and will continue until further notice.

Consumers pay the cost of Petrocan's expansion plans

Canadian drivers will pay the price of Petro-Canada's purchase of the Canadian assets of Petrofina, including about 1,200 service stations in eastern Canada.

Energy Minister Marc Lalonde this week announced special levy on crude oil which will boost gasoline and home heating oil prices by about 0.8 cents a litre (3.5 cents a gallon) as of May 1st. In addition, a 15 cent per thousand cubic feet levy is being imposed on natural gas.

The funds generated by the special tax will be used to pay for 85 percent of the purchase of Fina assets, a deal which could cost as much as $1.81 billion.

Lalonde said while this levy is scheduled to run only two years, it could be increased or lengthened to finance further purchases by the crown energy corporation though none is contemplated at this time

What it means to the consumer however, is a continued energy cost spiral beyond that which was indicated by the federal government's proposed price increase formula.

Consumers are already paying another special tax as a result of the inability of the federal and Alberta governments to come to an agreement on energy price increases. As a result, Alberta cut back production of crude oil in the province, increasing the amount of oil we import, imports which are subsidized to keep the cost of gasoline and oil at about the same cost across Canada.

And is is possible these special levies may never be dropped, despite the stated government intention that they are short-term measures.

So was income tax when it was introduced as a short-term measure to raise money to fund our military efforts in World War I.

Announce OHRP Grants

Housing Minister Claude Bennett has announced grants totalling more than $3.5 million to 88 municipalities under the Ontario Home Renewal Program (OHRP), including $40,000 each to Stanhope and Dysart et al Township.

Administered by municipalities, the program assists homeowners to upgrade their homes, with the emphasis on faulty structural and sanitary conditions, and on plumbing, insulation, heating and electrical systems.

Loans of up to $7,500 are made to eligible owner-occupants who wish to bring their homes up to standard. A portion of a loan may be forgiven, depending on the recipient's income. Interest rates range from zero to eight per cent, again depending on income.

For applicants, the maximum annual qualifying income, after deductions allowed under the program are made, is $15,500.

OHRP benefits are available to eligible owner-occupants in all municipalities which have adopted minimum housing standards by-laws or resolutions establishing standards. In communities without municipal boundaries, OHRP is administered by the Ministry of Housing's community housing division in conjuntion with the Ministry of Northern Affairs.

Tri County entry leaves, joins Oshawa Fastball loop

LINDSAY — The New Royal Jets men's softball team will be providing the entertainment for their softball fans this summer with their recent entry in the classy Oshawa Senior Fastball league.

The team has been working out at the LCVI gym for the last couple of weeks and plans practices at the George Street park very soon.

The Jets hope to have the services of one of the top senior fastball pitchers in Canada on their line-up card this season, as star Oshawa pitcher Pete Landers has been working out with the Lindsay boys. At present the team is seeking employment for the speedball artist and a couple of players from the successful Minden and Bobcaygeon teams in the league will be joining the Jets franchise.

Larry Tamblyn will be glad to hear from supporters and prospective players as their schedule opens in early May.

Carnarvon Lanes, PL win the Commercial League titles

CARNARVON — The 1980-81 bowling season in the men's commercial league here is now over. Wednesday evening Carnravon Lanes took the A series playoffs with a 250 pt margin over Modern Electric. The Lanes team garnered 10,542 while Modern rolled 10,292. Finishing third was Ingoldsby with 10,287.

In the B series PL held off West Guilford to win by 163 pins, rolling 10,256 to 10,083. PL went into the final three games with a 363 pt lead. Third went to North Shore Lawn and Garden with 9,822.

The championship team for Carnarvon Lanes boasted Gord Everall, Ron Robinson Sr., Doug Robinson, Dan Harding, Dave Bell, Tim Hughes and Garth Henderson. Consolation winners from PL — Bob Robinson, Albert Cox, Fred Cox, Jim Wilson, Cliff Burke and Eric Burk.

With one week to go in the Tuesday Combines mixed league the A series is led by Bill Green with 6,077 followed by Art Beatty at 6,010 and Horry Baker 5,757. In the Consolation B series Ian Coltman leads with 6,071 followed by Bruce Medcalf Jr with 6,038 and Bruce Medcalf, Sr. 5,698.

Also having one week remaining in their season is the Dorset Mixed league. Leading after six games the Sharp Shooters with 6,678 followed by Priscella's Boy's 6,645; Clean Sweeps 6,399; Maggie's Muggins 6,359; Pushers 6,264 and Charlie's Angels 6,200.

Huntsville firm will build new humane animal trap

Production of a humane animal trap developed by the Ontario Ministry of Natural Resources will be undertaken this year by a Huntsville firm.

The foot-snare device is considered to be significantly more humane than traps currently in use in land trapping. Invented by Milan Novak, the ministry's fur services co-ordinator, it will be manufactured by Robert Dickson Mechanical Developments Ltd. of Huntsville.

Funds for the trap's manufacture, provided by the Ontario Ministry of Northern Affairs, include $150,000 for production and $1,000,000 to secure the patents in 17 countries.

It is anticipated that there will be substantial returns to the Crown in royalties.

The leg hold trap in current use has been critized for the pain it inflicks on trapped animals. The new live trap works like a snare and does not cause injury. As well as being a more humane trap it allows the trapper to release unwanted animals, including domestic pets which may trip the mechanism.

The live trap is expected to be competitively priced in comparison to smaller leg hold traps and is lighter, safer and easier to carry.

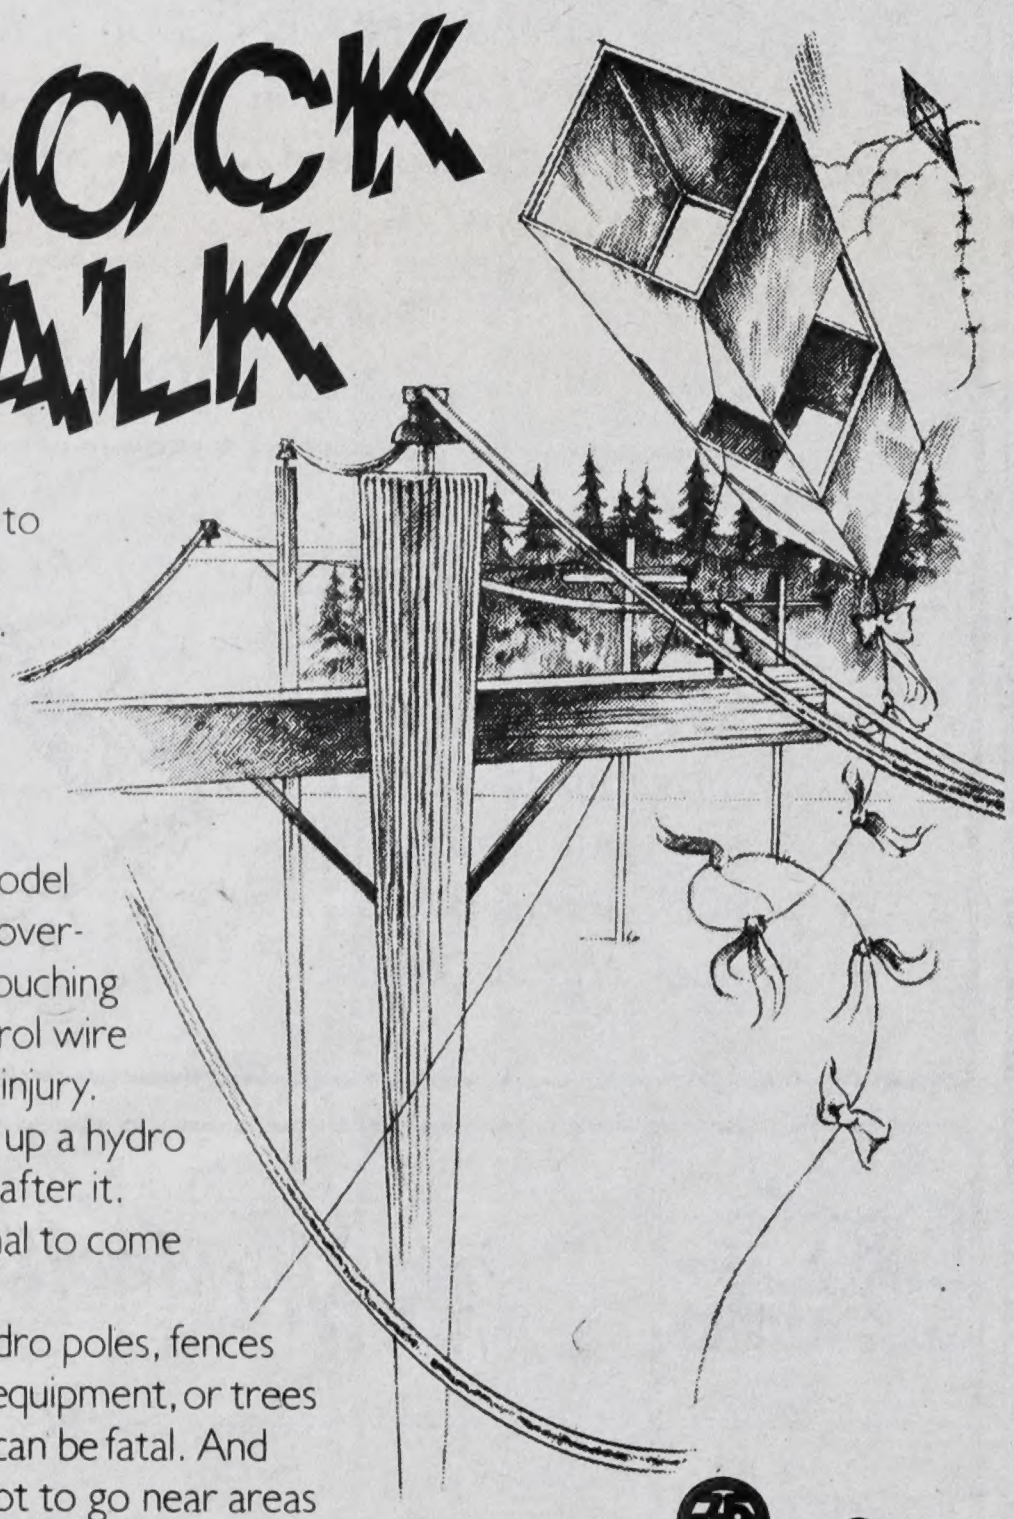
SHOCK TALK



Tell children to play safely...away from hydro wires. Touching or coming close to hydro wires can be fatal.

If kites or model airplanes contact overhead lines, even touching the string or control wire can cause serious injury.

If a pet runs up a hydro pole, never climb after it. Wait for the animal to come down by itself.

Climbing hydro poles, fences around electrical equipment, or trees near power lines can be fatal. And remind children not to go near areas marked "Danger" or "Keep Out." Or, the fun could be over.

OPP receive own Radar Speed measuring device for County

MINDEN — For the first time, Minden OPP have been issued their own radar speed measuring device. Until this month, the radar unit has been borrowed from other detachments and it is hoped the regular use of the device will help to reduce the numerous single car rollover and similar type speed related accidnts in the County. So far this month, 89 drivers have become painfully aware of the radar's presence.

In the same vain — two fuzzbusters have been seized in the county and their owners charged. These radar warning devices usually cost about $140 and it is unlawful to possess one of the devices in a vehicle. Fines range from $50 to $500 and the devices are forfeited upon conviction.

Once again the Ministry of Transportation and Communications are operating their Safety Lanes in the county. The lanes are set up to assess the road worthyness of vehicles and are responsible for removing unfit cars and trucks from the highways. OPP officers have been issuing inspection forms for the last two months. Once a form has been issued the vehicle owner must submit his vehicle for inspection or turn in the plates.

Vehicle owners may also attend on a volunteer basis as follows: Haliburton MTC Yard, Hwy. 121, Monday, May 4, 8:30 am to 3:30 pm; Minden MTC Yard, Hwy. 35, Tuesday May 5 same times. Both lanes are closed between Noon and 1 p.m.

A very unusual happening this week, the OPP report no motor vehicle collisions over the past seven days other than a couple of minor fender-benders.

First Ontario Provincial Parks Conference Focuses on Issues in the '80's

An Ontario Provincial Parks Conference focusing on planning and management issues facing the province's parks in the 1980's, will be held May 11 to 14 at the University of Waterloo, Ontario Natural Resources Minister James Auld announced.

The conference, Issues In The '80's, will deal with subjects such as resource protection, changing public attitudes toward parks, wilderness, parks and tourism, outdoor education, park legislation, park planning and management.

Speakers will include Dr. Gerald Killan, University of Western Ontario; Ron Reid, Federation of Ontario Naturalists; Monte Hummel, World Wildlife Fund; Dr. G. Nelson and Dr. G. Priddle, University of Waterloo; Bob Davidson, Tom Beechey, and John Sloan, Ministry of Natural Resources; and Dr. John Marsh, Trent University.

The conference is sponsored by the Ontario Provincial Parks Council and the University of Waterloo, Faculty of Environmental Studies.

Registration fee is $50. Students may register for $20.

As part of the Conference, an Open House and Public Meeting will be held by the Provincial Parks Council on Tuesday, May 12, at 7:30 p.m., in the Arts Lecture Hall, University of Waterloo.

"Any individual or group wishing to discuss issues related to Ontario Provincial Parks is invited to attend this public meeting on May 12.

"Discussions on wilderness, tourism, accessibility by the handicapped, resource management, quality of service, hospitality, natural areas protection, development standards, private sector business opportunities, interpretation or any other matter of concern to the public are welcomed," Mr. Auld said.

Anyone wishing to speak at the May 12 public meeting may contact the Parks Council Chairman for an appointment time if preferred.

Ministry of Natural Resources staff will answer questions and assist the public in planning visits to provincial parks. Featured will be displays, publications, and audio-visual presentations about Ontario's parks.

Ontario is famous for its fishing. The Ontario government constantly checks this valuable resource through its continuing research and testing program of fish. Testing has now been done in 1036 lakes and rivers.

"GUIDE TO EATING ONTARIO SPORT FISH"

The results are published in the three booklets "Guide to Eating Ontario Sport Fish" (Northern Ontario, Southern Ontario and Great Lakes editions).

NOW AVAILABLE FOR 1981

You can get your free copies from your nearest office of

THE ONTARIO MINISTRY OF THE ENVIRONMENT
THE ONTARIO MINISTRY OF NATURAL RESOURCES
THE ONTARIO MINISTRY OF NORTHERN AFFAIRS

Copies are also available in vacation area
Brewers' Retail Stores and LCBO Stores during June.
